

Working/Sporting Dog Photographic Shoot

Steve is an internationally respected wildlife photographer and has spent countless hours watching and photographing British wildlife. He has a deep understanding and knowledge of how best to capture wildlife in its natural environment and this is reflected in the stunning images he produces. Steve is now transferring these skills into the challenging task of photographing sporting/working dogs doing what comes naturally to these animals.

Steve is offering the opportunity to have your dog(s) photographed in a working environment and to have a selection of these images taken, presented on a DVD. Also included will be a print mounted to 20x16 plus a set of blank notelet cards. Other print sizes and products are available.

Steve will travel to a location of your choice and will take a series of images which will reflect the personality of the dog(s), whilst always keeping in mind your requirements. He will spend up to three hours with you, allowing ample time for the dog to relax, and giving him the opportunity to capture the dog in various situations. This can include water, woodland and open land alongside images of you and your dog together, your dog retrieving and working.

As a professional modern day photographer Steve uses only top quality digital photographic equipment with a range of lenses to cover all eventualities and techniques. Together with Steve's processing knowledge this will produce the highest quality finished image.

Photographic package

To travel to a chosen location*, to spend up to three hours with the subject taking a good number of images, to produce a DVD with a selection of the day's images to a printable quality, one print mounted to 20x16 and a set of six blank cards. £175

*Travel up to 60 miles included, thereafter 45p per mile.

Other Products

Extra DVD £35
